

# Elements

The element symbol for hydrogen is

H

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The second most abundant element in the Universe is

He

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The element symbol for lithium is

Li

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The element symbol for carbon is

C

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The element symbol for nitrogen is

N

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The element symbol for oxygen is

O

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The element symbol for lead is

**Pb**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

The element symbol for uranium is

**U**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

Ca is the element symbol for

**calcium**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

Ne is the element symbol for

**Neon**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

Mg is the element symbol for

**Magnesium**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

Na is the element symbol for

**Sodium**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

The most abundant element in the body by mass is

Oxygen

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The most abundant element in the body by # of atoms is

Hydrogen

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The three elements that are found in the human body in the greatest quantity are

H, O, C

Correct: move ahead 2 space  
Wrong: stay where you are

# Elements

A substance composed entirely of atoms with identical atomic numbers is called an

element

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

A tiny, chemically indivisible particle made up of protons, electrons and sometimes neutrons.

Atom

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

The most abundant element in the universe is --

H

Correct: move ahead 1 space  
Wrong: Go back 1 space

# Elements

In  $C_{12}$ , the 12 refers to what --

**Mass number**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

The periodic table of elements is arranged how.

**By increasing atomic number**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

The second most abundant element in the universe is

**Li**

Correct: move ahead 2 space

Wrong: stay where you are

# Elements

An isotope of an element is determined by its number of

**neutrons**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

The most stable of all heavy elements is

**Lead**

Correct: move ahead 1 space

Wrong: Go back 1 space

# Elements

One of the heavy elements that has no stable isotopes

**uranium**

Correct: move ahead 1 space

Wrong: Go back 1 space
